Barton Academy Notes.

Ernest Ash, who is in the New England hospital at Boston for operations is getting along well.

A new senior subject in charge of Miss Storrs has begun this week. It is elementary economics, and is most interesting and instructive.

The directors and faculty of Barton academy and graded schools extend a cordial invitation to all friends to inspect the regular work of this institution during that time.

An effort is being made to adjust the work of the second year boys so that they will be able to gain more additional work in general science which will be given.

The only departure from the regular work of the week will be Friday afternoon when Arthur F. Stone will give an address in the junior high school room at 2:45 on the subject of "Making the Most of Life." Mr. Stone has traveled widely and studied much. His talk will be well worth while.

Chapel speaking by the members of the junior high school has begun. Those who have already spoken are: Helen Harlow, who gave, "The Lumbermen," by Whittier; Mamie Shelton, "The Inventor's Wife," by Corbett; Jesse Moulton, "Old Man Goes to Town," and Geraldine Sargent, "Rhoderick Lee."

Last Thursday afternoon in chapel Mr. Burroughs, the violin instructor, played three violin numbers, unaccompanied, and also played while the school sang. Mr. Burroughs is a master of his instrument and his playing was greatly appreciated by students and faculty. He has promised to appear again.

The following notice and invitation has been sent to all parents of students in the grades and high school: "The week of December 6-10 has been designated by the commissioner of education of the United States as a period during which special emphasis should be given to the publicity of school matters throughout the nation."

The sale of Christmas seals for the benefit of anti-tuberculosis work of the Red Cross has been assigned to Principal Merrill by the state department. Mr. Merrill has turned this work over to Miss Leona Moulton, '21. It is hoped that a generous response will be received from the public to the requests of the small salespeople to buy these seals.

Barton Academy vs. Newport High

On Thursday evening, December 2, there was played in Seaver's hall a very fast game of basketball between the Barton academy boys and the Newport high school boys. The Newport team came to Barton expecting a victory but although they played a fast game they went home beaten by a score of 38 to 26. Barton played the best game seen on this floor for a number of years. Carter was the sensation of the evening making 28 of the 38 points made by Barton team. At the beginning of the game Newport put in one of her substitutes and reversed her regular forward for the latter part of the game but when Carter shot three baskets the first two or three minutes the Newport captain decided that in order to win the game he must put in his best men. Newport played a fine game but Barton was too much for them and at the end of the first half the score stood 20 to six in Barton's favor.

In the second half Newport picked up wonderfully and their score was 26 to 20 but Barton was still in the game and by shooting seven baskets and one foul, raised the score, and thus won the game.

This makes one game in favor of each team this year and it is hoped that the tie may be played off. It is believed by all Barton academy backers that with hard work and plenty of backing, Barton can have one of the best teams in the vicinity. Let's all get together and help the boys make it so.

Sunday Observance

Will you kindly print the following in answer to an editorial in your paper of last week.

Our forefathers came to this country that they might have religious freedom and worship God after the dictates of their own hearts. There is no place in the Bible where we are commanded to observe Sunday as the Sabbath. The Sabbath was founded at the time of creation. The Roman Catholics admit they caused the seventh day of Bible Sabbath to be changed to Sunday. If we believe the Bible as it is written, there should be no man-made laws to compel the observance of Sunday.

Respectfully, G. S. S.

Between 40 and 50 young people enjoyed the Christian Endeavor social held in the vestry of the Congregational church Monday night. Miss Ida Whitener, Miss Edith Alexander, Robert Buck and Mr. Hutchinson contributed to the program. Refreshments of cocoa and cookies were served and games played.

Supporters of the Congregational church, who have not yet contributed to the fund for the payment of the blower for the pipe organ, should make their contributions at once to any member of the music committee, Mrs. R. P. Webster, Mrs. G. C. Lang or C. F. Cutler. The amount thus far received has been liberal but falls much short of the total cost.

An order by officials of the Boston & Maine railroad results in keeping the passenger station closed Sunday during the day with the exception of a few minutes at train time for the air line going both north and south. This is a conservation measure to save salaries but is a great inconvenience to the public, especially those persons from out of town who come to take a train during the winter and have no waiting place.
